# VACU/POWER 450A

The accu suction unit with integrated vacuum pump, battery and battery charger. The device is designed to work in workshops and on site. The slim design makes it for working in tight spaces between scaffolding and facade. Funny and safe solution design allows to hang the device on the crane hook and to work in vertical as well as in horizontal position. The tilting from vertical to horizontal position (and in reverse) is easy and secure by the manual operated hydraulic cylinder. Manual turning of the device of 360° possible.

## Accessories:

- transport trolley
- 2x supplementary suction pads
- hydraulic cylinder for tilting from vertical to horizontal position

- lifting capacity 300 kg
- 4 suction pads 150K
- dimensions 900 (W) x 680 (H) x 200 (L) mm

- lifting capacity 450 kg
- 6 suction pads 150K, with double sided extension every with 1 suction pad 150K
- dimensions 2 100 (W) x 680 (H) x 200 (L) mm

- lifting capacity 450 kg
- 6 suction pads 150K, with double sided extension every with 1 suction pad 150K
- dimensions 2 100 (W) x 680 (H) x 200 (L) mm, manual damping of 90° to the horizontal
- 2-circle system with alarm equipment, safety vacuum tank
- voltage indicator and battery charger

## Machines for machining of ALU, Fe and PVC profiles
