# PANTO 100

All-purpose single spindle  
copy router

*All-purpose single spindle copy router PANTO 100*

- For milling of aluminium, PVC, steel and light alloys profiles.
- Vertical milling unit. Spindle speed controlled by frequency converter.
- Two pneumatic triple acting copying bolts, with copy finger 6, 8, 10 mm, other diameter on request. Copy routing at a ratio 1:1.
- Operation is controlled by two hand levers. Support of milling unit installed on linear bearings. Range of movements can be limited by stops with scale.
- Free adjustable pneumatic material clamps and supporting surface enable routing through the profile cross section in one clamping.
- Prepared for mounting of length stop system with self-centering device and constant positions.
- Quick change copying template system with accurate positioning.

# PANTO 100

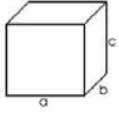

All-purpose single spindle copy router

- Controls of the machine:
  - copying bolts
  - pneumatic clamps

- Free adjustable pneumatic copying bolts
